

Never buy terminal equipment again.

The days of purchasing, leasing, or renting processing terminals are over. Total Merchant Services' free terminal placement programs have the right terminal for you — absolutely free!

Give your business the best credit card terminal available today — FREE.

Get a free credit card processing terminal, a free wireless terminal, a mobile phone card swipe reader, or a free virtual terminal.

With Total Merchant Services, you get a state-of-the-art, multi-application credit card processing terminal — absolutely free.

We offer a free credit card processing terminal that can process transactions through your phone line or the Internet, a free wireless terminal, a mobile phone card swipe reader so you can make sales just about anywhere, or a free virtual terminal which lets you process transactions via a website.

And we'll ship the terminal to you and help you get it up and running, all for free. Why? When your business thrives, so does ours. Unlike our competitors, we're willing to make an upfront

investment in your success today because we believe it will pay off tomorrow.

What's the catch? Where are the hidden fees? No catch, no hidden fees. When we say "free," we mean it. If you're paying extra fees or higher rates in exchange for a complimentary terminal, then it's not really free. That's why we guarantee that you'll get rates at or below your current rates.

With a payment solution for every situation, Total Merchant Services can truly set your business free.
